# PFSweb Reports First Quarter 2013 Results

Strategic Relationship with transcosmos Positions PFSweb for Strong New Business Potential in Asia and with Asian Brands Looking to Establish an eCommerce Presence in the U.S. and Europe

Allen, Texas, May 15, 2013 — PFSweb, Inc. (Nasdaq: PFSW), an international provider of end-to-end eCommerce solutions, today announced its financial results for the quarter ended March 31, 2013.

"We are very excited about several significant developments in our business that we believe strongly position PFSweb for solid growth and enhanced shareholder value in the future. We have recently won several new and expanded client relationships, including a promising new agreement with a leading Fortune 500 retailer of apparel and home fashion, and we have seen an increase in our sales pipeline to approximately \$50 million, based on client projections," stated Mike Willoughby, Chief Executive Officer at PFSweb.

"We are also excited to announce a definitive agreement to form a strategic relationship with transcosmos inc., through which we will gain access to both their Asian-based global client brands looking to expand into the U.S. and European markets, and their extensive infrastructure to support our clients' expansion into Asia, including Japan, China and South Korea. As part of the relationship, transcosmos is acquiring a 19.9% equity position in PFSweb through a direct investment of approximately \$14.7 million. This influx of capital will play an important role in allowing PFSweb to accelerate its ongoing growth initiatives," continued Mr. Willoughby.

"While we are pleased with our results from the first quarter ended March 31, 2013, we continue to expect CY2013 to be a transition year for us as we wind down certain previously announced client programs. However, through a combination of organic and new growth opportunities, coupled with operational changes aimed to drive business efficiencies and cost reductions, we believe we are establishing the appropriate framework to usher PFSweb into a period of exciting growth starting in 2014," Mr. Willoughby added.

#### Summary of consolidated results for the first quarter ended March 31, 2013:

Service Fee revenue decreased slightly to \$28.0 million, compared to \$28.4 million for the same period in 2012; Service Fee Equivalent Revenue (as defined) decreased 4% to \$30.0 million, compared to \$31.2 million for the same period in 2012;

- Total revenue decreased 13% to \$63.1 million, compared to \$72.8 million for the first quarter of 2012;
- Adjusted EBITDA (as defined) increased 12% to \$2.9 million, compared to \$2.6 million for the same period in 2012; Adjusted EBITDA for the first quarter of 2013 included an incremental benefit of approximately \$0.6 million applicable to certain client transition related agreements, which we also expect to continue into the second quarter of CY2013;
- Net loss was \$2.6 million, or \$0.20 per basic and diluted share, compared to net loss of \$1.3 million, or \$0.10 per basic and diluted share, for the first quarter of 2012; Net loss for the first quarter of 2013 included \$2.3 million of restructuring and other charges while net loss for the first quarter of 2012 included \$1.0 million of move related expenses and lease termination costs;
- Non-GAAP net income (as defined) was \$21,000, or \$0.00 per basic and diluted share, compared to non-GAAP net income of \$77,000, or \$0.01 per basic and diluted share, for the quarter ended March 31, 2012.

Mr. Willoughby continued, "The financial results for the first quarter reflect certain impacts from the previously announced client transitions and restructuring related activities. We continue to expect that we will experience reduced revenue and profit in the second and third quarters of 2013, as compared to the first quarter of 2013, as these client programs continue to transition. We then expect an improvement in our fourth quarter as we realize increased benefits from new and expanded client relationships, including potential new clients through our new transcosmos relationship, and seasonal client volumes. We believe we are making the appropriate adjustments to our operations and staffing to address the reduced revenue level, while still supporting our long-term growth initiatives.

"We are excited about the positive momentum in the business, including the incremental new business opportunities we anticipate from our transcosmos relationship. Given the ramp up time required to contract and implement new client solutions, we expect the benefits of these opportunities will primarily be reflected in our CY014 and forward results. As such, we are reaffirming our guidance for calendar year 2013, with Service Fee Equivalent Revenue expected to be in the range of \$110 million to \$115 million, and Adjusted EBITDA in the range of \$8 million to \$10 million, excluding the impact of restructuring and other related expenses which we expect to continue, but to a lesser extent, into the second quarter," Mr. Willoughby concluded.

#### **Non-GAAP Financial Measures**

This news release may contain certain non-GAAP measures, including non-GAAP net income (loss), Earnings Before Interest, Income Taxes, Depreciation and Amortization ("EBITDA"), Adjusted EBITDA and Service Fee Equivalent Revenue.

Non-GAAP net income (loss) represents net income (loss) calculated in accordance with U.S. GAAP as adjusted for the impact of non-cash stock-based compensation expense, restructuring and other charges, lease termination costs and certain move related expenses.

EBITDA represents earnings (or losses) before interest, income taxes, depreciation, and amortization. Adjusted EBITDA further eliminates the effect of stockbased compensation, restructuring and other charges, lease termination costs and certain move related expenses.

Service Fee Equivalent Revenue represents service fee revenue plus the gross profit earned on product revenue.

Non-GAAP net income (loss), EBITDA, Adjusted EBITDA and Service Fee Equivalent Revenue are used by management, analysts, investors and other interested parties in evaluating our operating performance compared to that of other companies in our industry. The calculation of non-GAAP net income (loss) eliminates the effect of stock-based compensation, restructuring and other charges, lease termination costs and certain move related expenses and EBITDA and Adjusted EBITDA further eliminate the effect of financing, income taxes and the accounting effects of capital spending, which items may vary from different companies for reasons unrelated to overall operating performance. Service Fee Equivalent Revenue allows client contracts with similar operational support models but different financial models to be combined as if all contracts were being operated on a service fee revenue basis.

PFSweb believes these non-GAAP measures provide useful information to both management and investors by excluding certain expenses that may not be indicative of its core operating results. These measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, GAAP results. The non-GAAP measures included in this press release have been reconciled to the GAAP results in the attached tables.
